Six Substations for Areva West bay

Key Facts

Client	AREVA T & D
Consultant	KEO
Completion Date	2008
Project Value	QR 139 Million

Description:

A design and built project consisting of six 66/11 KVA Substations including all MEP services and landscaping in West Bay area. Each building has a plinth area of approximately 900 meters, with a basement for cable entry, ground floor accommodating 66/11 KVA switchgear rooms, transformer yard, AC/DC room and battery rooms. First floor consists of a control and relay room. The substations are located amongst high rise buildings in the West Bay area.
